The Core Curriculum for Transplant Nursing provides a guide to comprehensive care for solid organ transplant recipients. It includes coverage of the unique requirements of each type of organ transplantation, with separate chapters on heart, lung, kidney, liver, small bowel, and pancreas transplantation, as well as a chapter on the care of living donors. Other chapters cover important topics that affect all organs, such as transplant immunology and pharmacology, infectious and non-infectious complications, patient education and discharge planning, as well as psychosocial, ethical, and professional issues in transplantation.
